

Spring
Term 1
Year 2

Handwriting practice and 60 second reads

Daily Reading
(Don't forget to log on Marvellous Me)

Mathematics

Numbots- collect coins and complete challenges to earn your next reward!

Practise counting in multiples of 2, 5 and 10.
Can you record these as written calculations?
Maybe you can time yourself and see if you can get quicker and quicker each week!

Challenge:

We will be learning about the 'inverse' operation of division e.g. $5 \times 2 = 10$ so $10 \div 2 = 5$.
Have a go at writing the division calculation to go alongside each multiplication.

Geography

We will be learning about maps and giving directions using compass points.
How about creating a treasure map or an obstacle course and drawing a map. Can you give directions using the words: North, East, South and West?

Coastline

Year 2 Homework Challenges

Science

We will be learning about weather and seasonal change.

Go for a walk in your local area. Do you notice any changes? What about the trees?

Talk about the type of clothing you are wearing, will this be the same in spring and summer?

Challenge your child to explain these changes. Perhaps they could do some research to find out more about the seasons and how they change. Is it the same for every country in the world?

Computing

We will be using Bee-Bots this half term to learn about programming and de-bugging. You can access an online version of this here <https://beebot.terrapi.com/>. Have a go at programming the Bee- Bot and completing different mazes.

English

Complete some research about lifeboats.
Can you write a fact file about them?
Perhaps you could write your own story about a lifeboat rescue or about a lighthouse.

Remember- we are focussing on editing and improving our work. Once you have finished, look back over your work and see if you can make any improvements.

Art/ DT

Can you create some flower art? Maybe you could complete some rubbings and add them to your artwork to give it a different texture.

Design and build a lighthouse. What materials will you use? How will you join them? How tall will it be? Can you think of creative ways to add pattern and colour?

If you're feeling creative you could even build a coastal diorama!
